Regulations effective Sep. 1, 2026.

Athabasca University offers students high quality, post-secondary education using online and print-based course materials. Course instruction centers on resources developed by a team of subject matter experts and enhanced by qualified tutors in a supportive distance learning environment.

At the heart of the University's philosophy is excellence, openness, flexibility, and innovation. Flexible learning means our students can start courses throughout the year, and study at home, work, or wherever they find themselves. Most of our students study year round. Athabasca University also has transfer arrangements with universities across Canada. This enables visiting students to transfer courses from Athabasca University to their home institution.

We encourage you to achieve your personal learning goals. Many of our undergraduate students go on to compete successfully with others for graduate level education at Athabasca University and other institutions across North America.

The minimum requirements for students using a Mac or PC are access to a web browser, email, and the software capability to submit assignments as Word documents. See the [AU IT website](#)  for current requirements. Some courses support other hardware and software platforms and may have more specific requirements noted in the online syllabus.

AU courses that use eTextbooks may have specific technical requirements. See the [eText Initiative](#)  website for updated information.

Exams written through ProctorU have additional technical requirements, such as students not being able to use a smartphone or tablet to write their exams. See the [ProctorU](#) page for updated information.

Course composite grade. The final grade for a course expressed as an Alpha grade. The course composite grade reflects a student's understanding of the course materials. The course composite grade is often a weighted average of the student's marks for quizzes, assignments, tests, and examinations. See [Undergraduate Grading Policy](#) .

Course contract period. The time that students are actively registered in a course. The course begins on the course contract start date and runs until the course contract end date.

Course contract start date. The date students officially start a course. For individualized study students this is usually the first day of the month of the course contract period. For grouped and paced online study, this is the date of the first scheduled class.

Course contract end date. The last day for students to complete an individualized study course is always the last day of the month (or the day the student finishes the course, if earlier). The last day for students to complete a grouped study course is always the date of the last scheduled course meeting.

Course syllabus. It is the description of the course that students, institutions, and others can consult to determine course prerequisites, course content, learning outcomes, required activities, and evaluation strategies. It contains information needed in order for a student to be able to register for the course (course overview, outline, number of credits, prerequisites and precluded, delivery mode, area of study, faculty, availability and if it is available for challenge for credit) and includes information needed for students currently registered in the course (evaluation: assignments and exams, course materials needed, challenge for credit information (if applicable) and challenge evaluation). Check the online [course syllabi](#) [↗](#).

Course work. All required activities (assignments, clinical or practicum placements, quizzes, papers, examinations, etc.) that are submitted for marking towards the final grade.

Courses with more than one area of study. Courses listed under one discipline may be listed under two areas of study. For example, a course listed as PSYC under the Social Science area of study may have a notation that it can also be used to fulfill the Science area of study for AU credential students only. This situation is not considered cross-listing.

Credential. Degrees, diplomas, or certificates awarded on successful completion of a program.

Credits. The value assigned to a course. Normally, AU courses are either three-credits or six-credits which corresponds to conventional universities of one

semester or two semesters respectively. Some courses in the Bachelor of Nursing degree carry a practicum component with a weight of four or nine credits. The course syllabus for each course will indicate how many credits it is.

Credit course. A course taken with the intention of obtaining credit. See also **Audit course**.

- › **Grouped study**
- › **Practicum**
- › **Paced online**

DegreeWorks. **DegreeWorks** [↗](#) is a web-based, academic advising and degree audit solution that retrieves the student's academic record from and organizes it into an educational plan on the web, easily identifying program requirements, which courses have been completed, and which courses students still need to complete their credential.

Designated bilingual programs. Programs through which students demonstrate proficiency in more than one language by completing at least 30 credits in each recognized language. Currently AU only has this available for French/English languages.

Digital Reading Room. The Digital Reading Room (DRR) is an electronic

version of a library reserve system, or a virtual reading room. The material accessed is either required course readings or it supplements the course, and is of use for further study and a deeper understanding of the subject matter. Refer to the library's [Digital Reference Centre](#). Tips on searching the journal databases and help with researching, writing, and citing (referencing) can be found in the [Library Help Centre](#).

Directed study. A 400-level course that does not have a prescribed curriculum. In consultation with the course professor, you will choose a specific topic and then undertake an in-depth study. Professor approval is required for all directed study courses before registration can occur.

› [When do I write?](#)

Exam write date. The date a student has scheduled to write an Athabasca University exam with the exam centre or an invigilator.

Exemption. There are two kinds of exemptions at AU:

1. AU may award a block transfer of credit to holders of an approved diploma or degree. Within the previous diploma or degree, you may have course equivalents to AU courses required within your current program. These courses would be awarded an exemption. To fulfill the program requirements, you will be required to replace these courses with courses of the same (or higher) level in the same area of study or discipline.
2. In program regulations where students are required to have ENGL 255, students can be exempted* from taking this course if they meet the following criteria:
 - have a grade of B- (70 per cent) or better in an AU English course above the preparatory (100) level; or
 - received credit for an English course in which a grade of B- or better

was achieved.

* The exemption must be replaced with a 3-credit course in any discipline at the junior/senior (200 to 400) level.

Extension. Lengthening the time allowed to complete an individualized study course by two months is called an extension. A maximum of three extensions are allowed and a **fee** is charged for each extension.

Grade point average. The grade point average is a weighted average calculated as follows: $\text{Sum of (grade point} \times \text{credit hours)} / (\text{sum of credit hours})$. Courses graded on a pass/fail basis and those courses accepted on transfer credit are not included in the GPA calculations. See [Undergraduate Grading Policy](#) .

Graduate studies. Advanced studies beyond the undergraduate level leading to an award of post-baccalaureate certificate, diploma, master's, or doctoral degree. Generally, requires an undergraduate degree for admission. AU provides innovative, Internet-based graduate programs that reach students

Support [↗](#), or by phone: 1.800.788.9041, extension 6405 (toll free from anywhere in Canada or the United States) or direct at 1.780.675.6405.

Home labs. Home labs are compulsory components of some of AU's science courses. Home labs are learning activities, such as demonstrations, observations, simulations, and experiments, which students do in or near their own homes rather than in a university laboratory.

These labs usually require a lab kit that students order online from the relevant course syllabus. Some home lab activities require some materials that most students have in their homes or materials can be purchased locally without great cost. The kits may contain materials that are hazardous in some way (especially for young children and pets) and as such, they must be handled and stored appropriately.

Students who are in correctional institutions may have some difficulty taking certain courses with home labs (e.g., some kits contain sharp objects that may not be allowed). Also, be aware that certain home lab kits cannot cross international borders (e.g., some contain seeds that may not be allowed in, others contain electronic equipment that required duty payments). Therefore, before registering, it is recommended that students contact the lab coordinator regarding the availability of home lab kits in each particular situation. Check the [course syllabus](#) [↗](#) for details.

Inactive student. A student who has let their [active status](#) lapse.

Independent labs. AU has developed a framework that allows students to

access the laboratory component of certain science courses without taking the remaining instructional component, provided they meet strict prerequisite requirements and have professor approval before registering in the course. Each lab is worth one credit. Should a student decide to take the remaining instructional portion of the course, the additional credit earned for laboratory modules is recognized.

Independent labs are supervised by AU lab instructors and professors and are only offered at specific locations at specific times. Most labs run between two to eight days. Students have up to two months to complete a lab from the date of registration. No extensions are allowed in independent labs unless specifically authorized by the course professor. Independent labs are not available for challenge. If a student is enrolled at another institution, the student should receive approval in writing by their home institution to ensure that it will grant credit for the lab. If the student is using this course to update laboratory skills (e.g., you are a teacher or instructor), the student must provide evidence of having previously taken an equivalent science course or have the equivalent theoretical requirements. When the student attends the lab, they are responsible for making their own arrangements and payments for transportation, accommodation, and food.

Science lab information [↗](#).

Individualized study. AU's main method of course instruction. Students set their own schedule within the time allowed to take the course (course contract period). Contact with the tutor, academic expert or course coordinator is done online or by email and students may interact with classmates in online forums within the course. For information on course start dates and registration deadlines, refer to the [registration section](#). Also, see other [delivery modes](#).

No area of study indicates that a course cannot be used to fulfill an area of study requirement in a program. The course may, however, fulfill part of the overall degree requirements if it is appropriate to the program.

Non-Academic Misconduct Policy. Non-academic offences attempted or committed by students on University premises or during University-sponsored activities shall be grounds for disciplinary action by the University under the

Non-Academic Misconduct Policy.

Non-Business and Administrative (area of study). These courses are any courses outside of the **Business and Administrative** area of study listing.

The file contains courses, grades, credits, and degrees pertaining to the file's subject.

Online Labs. Online labs (virtual labs) are compulsory components of some of AU's science courses. They are series of interactive, inquiry-based science simulations and exercises. These labs are delivered via the Internet and are required to be completed by students on their own computers. Registered students will be allowed the access to these labs through the course webpage (course site), or through external links (individually provided for each specific course). Some online lab activities are interactive simulations of experiments that are typically conducted in a laboratory setting and other online lab activities are realistic simulations of systems in nature (virtual labs).

Open admission. Admission to the University and registration in courses (except where a prerequisite is needed) is not based on prior academic

achievement. The only admission requirement is that a student must be 16 years of age or older unless specifically exempt from the age requirement. See **Admissions** for more information.

Open Educational Resources (OERs). Any type of educational materials that are in the public domain or introduced with an open license. The nature of these open materials means that anyone can legally and freely copy, use, adapt and re-share them. OERs range from textbooks to curricula, syllabi, lecture notes, assignments, tests, projects, audio, video, and animation.

Options. One or more courses chosen from any discipline to complete degree requirements. Students should be cognizant of the level and area of study requirements if either have not already been met.

P

Paced online. A course that is offered online, but students follow along a schedule of assignments, discussion, and examination as set out by the instructor. See other **delivery modes**.

Parchment. Document issued by AU that communicates the nature of the credential and date of its conferral. This document is signed and sealed by AU officials.
