Challenge:	HADM 339 has a challenge for credit option.	
Faculty:	Faculty of Health Disciplines 🗹	

Status:

Replaced with new revision, see the **course**listing for the current revision

Overview

As Canadians, we all know something about the Canadian health care system. We gain much of our knowledge through personal experience, using a number of health care services through our lifetimes. It is also unlikely that our friends and family members have entirely escaped the need for health care. Knowledge can also be gained by working in the health care system, or by studying various health-related topics. Finally, most of us have read or heard media reports on development in the Canadian health care system.

It is important, then, to start this course with some reassurance about our own knowledge of the Canadian health care system. At the same time, we must recognize that our knowledge may be limited to what we have experienced, observed, or heard. This course is designed to build on students' current understanding of the Canadian health care system, through discussions of how the system came about, what it consists of now, and how it is changing.

Outline

HADM 339 is divided into nine units:

- Unit 1: The History of the Canadian Health Care System
- Unit 2: The Components of the Canadian Health Care System
- Unit 3: Who Uses the Health Care System? (Part 1)
- Unit 4: Who Uses the Health Care System? (Part 2)

- Unit 5: Illness Prevention and Health Promotion
- Unit 6: Who Provides Health Care?
- Unit 7: Health Care Controls and Safeguards
- Unit 8: Health Care Costs and Financing
- Unit 9: The Canadian Health Care System: Challenges and Threats

Evaluation

To **receive credit** for HADM 339, you must achieve a course composite grade of at least **D** (50 percent) and a grade of at least 50 percent on the Final Examination. The weighting of the composite grade is as follows:

Activity	Weight	Complete by
Tutor-marked Exercise 1	15%	after Unit 2
Tutor-marked Exercise 2	15%	after Unit 8
Essay Assignment	30%	after unit 7
Final Examination	40%	after Unit 9
Total	100%	

The **final examination** for this course must be taken online with an AU-approved exam invigilator at an approved invigilation centre. It is your responsibility to ensure your chosen invigilation centre can accommodate online exams. For a list of invigilators who can accommodate online exams, visit the **Exam Invigilation Network C**.
