

**Overview** 

# Health Administration (HADM) 399

Evaluating Health Research Evidence (Revision 1)

Delivery mode:	Individualized study online 🗷
Credits:	3
Area of study:	Applied Study
Prerequisites:	None
Precluded:	None
Challenge:	HADM 399 has a challenge for credit option.
Faculty:	Faculty of Health Disciplines 🗗
Status:	Replaced with new revision, see the <b>course listing</b> If for the current revision

Health Administration (HADM) 399: Evaluating Health Research Evidence is a three-credit (one-semester) course designed to help students understand and use health research evidence and strengthen their research knowledge and skills in order to make informed decisions in their practice. These skills include the ability to understand and interpret the research literature and the capacity to translate knowledge into action.

The content, activities, and assignments in HADM 399 are designed for two main purposes: (1) to increase knowledge about the research process and (2) to enhance critical thinking skills as a user of the research evidence. The majority of the course focuses on quantitative research methods because the bulk of health and health services research is quantitative. It is important to understand how to read and interpret quantitative literature. Qualitative and mixed methods are also increasingly used in health services research, particularly for program evaluation and quality-assurance activities. Therefore, qualitative and mixed methods research is introduced in the course, but detailed discussion about this expanding field of inquiry is beyond the scope of HADM 399.

## Outline

- Unit 1: The Role of Research Evidence in Health Administration
- Unit 2: Research Questions and Sources of Evidence
- Unit 3: Quantitative Research Designs
- Unit 4: Research Ethics and Sampling
- Unit 5: Measurement and Analysis
- Unit 6: Research Design Validity
- Unit 7: Qualitative and Mixed Methods Designs
- Unit 8: Conducting a Literature Review
- Unit 9: Knowledge Translation

# Evaluation

To **receive credit** C<sup>\*</sup> for HADM 399, you must achieve a **D** (50 percent) (b) or higher on each evaluation activity. The weighting of the course grade is as follows:

Activity	Weight
Assignment 1: Finding Research Articles	10%
Quiz 1	10%
Assignment 2: Presenting Evidence from Multiple Articles	30%
Quiz 2	10%
Assignment 3: Conducting a Research Literature Review	40%
Total	100%

To learn more about assignments and examinations, please refer to Athabasca University's **online Calendar C**.

## Materials

Bassil, K., & Zabkiewicz, D. (Eds.). (2014). *Health research methods: A Canadian perspective*. Don Mills, ON: Oxford University Press Canada.

### Study Guide

The online Study Guide includes nine units, each of which provides a unit description and list of learning outcomes. This is followed by either one or two reading or viewing sections, with assigned and recommended readings. The assigned readings are either from the textbook or available online through the course's Digital Reading Room. The commentary section of each unit may highlight assigned readings and viewings and/or expand on the topic(s) covered in the unit. Each unit contains a self-study section and exercises to enhance the learning process.

#### **Course Information**

The online Course Information provides essential information specific to the course and the procedures you should follow to complete the course successfully.

#### Student Manual

The online Student Manual contains *non-course specific information* relevant to you as an Athabasca University Student, such as library information, information about your course contract, procedures for writing examinations, etc.

# Challenge for credit

#### Overview

The Challenge for credit process allows you to demonstrate that you have acquired a command of the general subject matter, knowledge, intellectual and/or other skills that would normally be found in a university-level course.

Full information about **Challenge for credit C** can be found in the Undergraduate Calendar.

#### Evaluation

To **receive credit** C<sup>\*</sup> for the HADM 399 challenge registration, students must complete all required components, and achieve an overall grade of at least D (50 percent) 2.

Activity	Weight
Quiz 1	10%
Quiz 2	10%

Activity	Weight
Completing a Research Literature Review using Multiple Sources	80%
Total	100%
