Overview

HADM 488: Risk Management and Safety in Health Services is an undergraduate course designed to introduce students to risk management concepts. The course provides a thorough introduction to health-care risk management as it should be practiced in health-care environments. It is appropriate for direct care providers, supervisors and managers, executives, patient representatives, quality managers, patient safety officers, and risk managers.

Outline

- Unit 1: The Risky Business of Health Care
- Unit 2: Brief History of Risk Management in Health Care
- Unit 3: Enterprise Risk Management
- Unit 4: Relation of Risk Management to Other Critical Health Care Management Functions
- Unit 5: Risk Information Sources and Loss Control Processes
- Unit 6: Special Topics in Risk Management
- Unit 7: Clinical and Sector Risks in Health Care Systems

Evaluation

To **receive credit** [!\[\]\(339a16584d5da0f0a3ca4e9ec17bf6a1_img.jpg\)](#) for HADM 488, you must achieve a course composite grade of at least **D (50 percent)** [!\[\]\(e06a1d39938b2f5d7a2c3618fea4f77f_img.jpg\)](#) and a grade of at least 50 percent on the Final Examination. The weighting of the composite grade is as follows:

Activity	Weight
Assignment 1	20%

Activity	Weight
Term Paper	25%
Assignment 2	20%
Final Exam	35%
Total	100%

The **final examination** for this course must be taken online with an AU-approved exam invigilator at an approved invigilation centre. It is your responsibility to ensure your chosen invigilation centre can accommodate online exams. For a list of invigilators who can accommodate online exams, visit the **Exam Invigilation Network** [🔗](#).
